

# A welcome from our Chairman

My first impressions of BT are that we have great strength in our assets, people and capabilities, and this positions us well to deal with the challenges and opportunities ahead. It is important that we maintain our market leadership and play our part in supporting the UK as a world-class digital economy. As chairman I intend to support our people, engage with our stakeholders collaboratively, and build an even stronger reputation for our company.

## **Strong first impressions**

I am honoured to be chairman of your company, BT.

I would like to take this opportunity to thank my predecessor, Sir Mike Rake, for his ten years of outstanding service to BT. I also want to thank the many people at BT who have made me feel so welcome.

BT is well positioned; we are leaders in fixed and mobile networks, in both our consumer and enterprise markets. We have four powerful brands, and we are financially robust. We have great people with wide-ranging skills and a healthy culture.

That said, this is a complex business; we operate in some tough markets and we have significant challenges ahead. For instance, volume growth in many of our markets is slowing, and we face increasing competition in our consumer, business and wholesale operations.

## **Initial priorities**

It is important to me that we secure investment in integrated networks, the digital infrastructure of the future, and maintain a relentless focus on improving the experience of our customers.

We need to continue to play our part to ensure the UK remains one of the world's leading digital economies. This requires us to invest in new technologies and opportunities; in fibre-to-the-premises (FTTP), 5G, cybersecurity and the Internet of Things.

It is also vital to continue to invest in our people to make sure we have the right skills to take our company forward. In 2017/18, we hired almost 2,400 new engineers in Openreach, and more than 2,500 apprentices and graduates.

At BT we have always looked after our people. My future focus will be to ensure we have a culture that rewards innovation, teamwork, customer orientation, and bold decision making.

And I want to make sure we give customers exemplary service. We have made significant improvements in customer experience across the group, but we are still not where we need to be. This is not just about speed, coverage, or value for money; it is about giving customers the best possible experience when dealing with BT so that they become advocates for our company.

I also believe an important part of my role will be to enhance the reputation of BT. In particular, it is critical that we build and maintain constructive and trusted relationships with government and the regulator.

### Key achievements

Your company took a number of significant steps in 2017/18.

We announced a large-scale FTTP deployment, and achieved 90% geographic coverage with 4G. We obtained a good allocation of 3.4GHz spectrum as part of our overall planning for 5G.

We launched ultrafast broadband products with minimum speed guarantees, and we secured another three years of Premier League football at lower cost. We entered into a supply arrangement with Sky that ensures our TV customers will enjoy the best possible content.

We have increasing clarity on key aspects of regulation, with the completion of the wholesale local access market review, the decision by the regulator not to mandate a dark fibre product for the time being, and with the implementation of a new governance structure for Openreach. After a detailed consultation process, and in agreement with our pension scheme members and their unions, we closed the defined benefit pension scheme to further accrual, whilst increasing the company's contribution rates to our main defined contribution pension scheme. In May we also reached agreement with the pension trustee on the 2017 triennial valuation and recovery plan, giving us certainty over the contributions we need to make to support the fund for the next three years.

And we used technology to support communities and society. Under our 2020 ambitions, we work to promote digital inclusion and build skills for the next generation. This year we also helped to raise around £109m for good causes.

### Capital allocation and the transformation ahead

Connectivity today sits at the centre of most people's lives and has become critical to homes and businesses alike. Consumption of data and bandwidth continues to expand at ever increasing rates, and at the same time technology continues to evolve as we move from copper to fibre, from 4G to 5G and from analogue to digital.

As the UK's incumbent provider we are determined to lead this transition from old to new technologies, but in order to do so our strategy will need to evolve to provide ever greater focus on our customers' experiences, and on network investment, whilst transforming our operating model to become a lean and agile organisation.

We have a comprehensive transformation programme in place to improve our operational and financial performance in what remains a competitive market environment, and we are increasing our investment to drive convergence and sustain our network leadership. We are confident in our strategy and the benefits we expect from the decisive actions we are taking to strengthen our competitive position.

Given the current market and regulatory headwinds and our investment plans, the Board has decided to hold the dividend unchanged for this year at 15.4p per share. The Board also expects to hold the dividend unchanged in respect of the next two financial years, given our outlook for earnings and cash flow over this period.

The Board remains committed to our dividend policy, which is to maintain or grow the dividend each year, whilst reflecting a number of factors including underlying medium term earnings expectations and levels of business reinvestment.

### Board changes

Karen Richardson and Tony Ball will step down from the Board at the conclusion of the Annual General Meeting in July, having served as non-executive directors for six and nine years respectively. I would like to thank Karen and Tony for their significant contribution during their time at BT. We have begun the process of finding successors to Karen and Tony and have appointed external consultants to assist with the search process.

### Looking to the future

I am delighted to be working with Gavin, and I know I have the support of a first-class Board. I am also confident we have the right leadership team in place to take our business forward and meet the challenges we face in the years ahead.

The Board has full confidence in the transformation programme that we have put in place. We believe that successful execution of our evolved strategy will serve the long-term interests of all our stakeholders and will ensure that we play our part in keeping the UK a leading digital economy.

Above all, we are confident that it will allow us to build trust and confidence and drive sustainable growth in value for our shareholders.

**Jan du Plessis**  
Chairman
